Thanks.

I think that matches the palette for the deep zone, but I'll defer to our GIS person.

Here is the EPA poster that crashed.

Hi Carolynne. Does this color scheme work for the presentation?

Would you be able to re-create the IWM figure using a blue color ramp like in the attached EPA jpg file?

Our graphic person was making a poster and his computer crashed and he lost the location and concentration info.

Please let me know.

Thanks.
